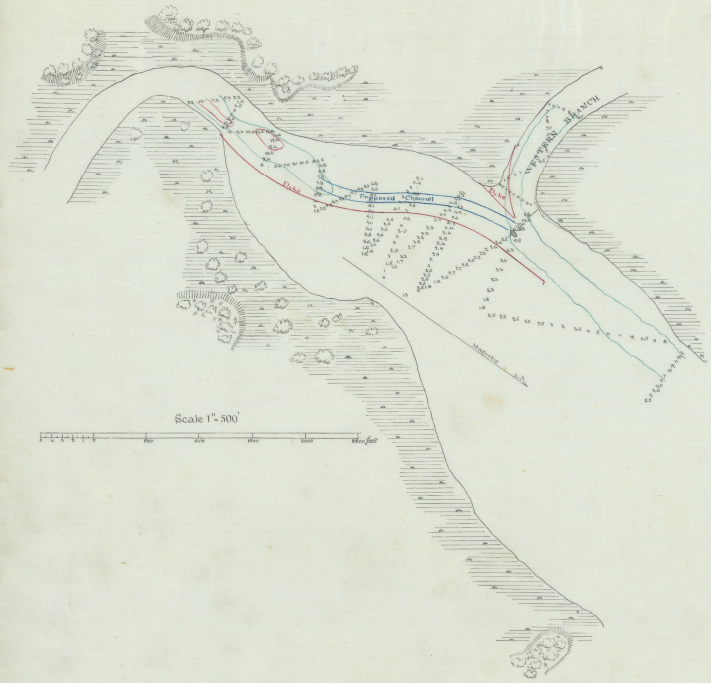
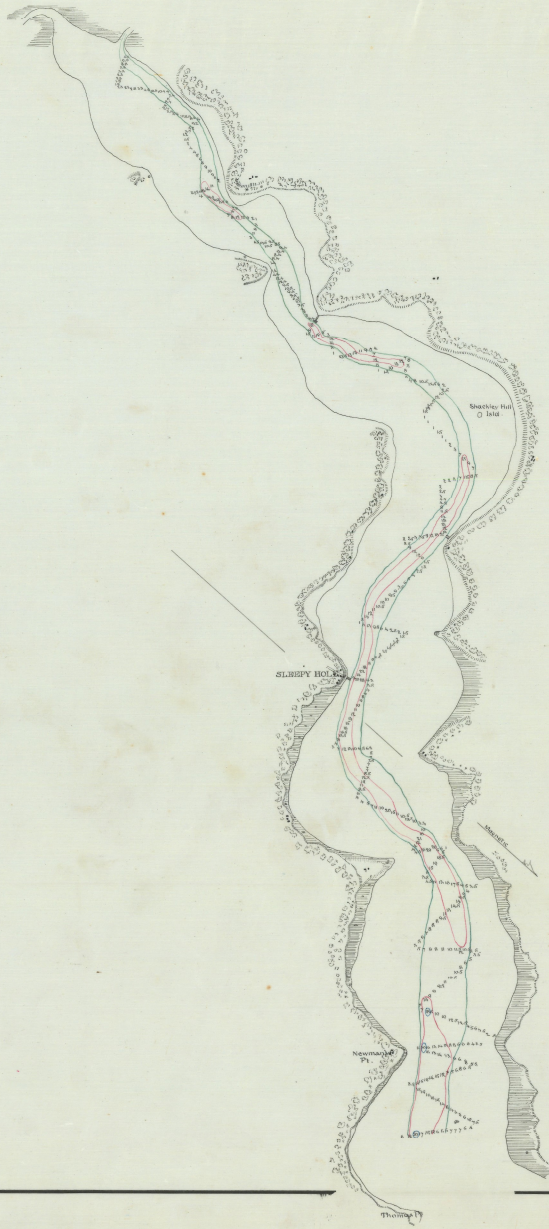
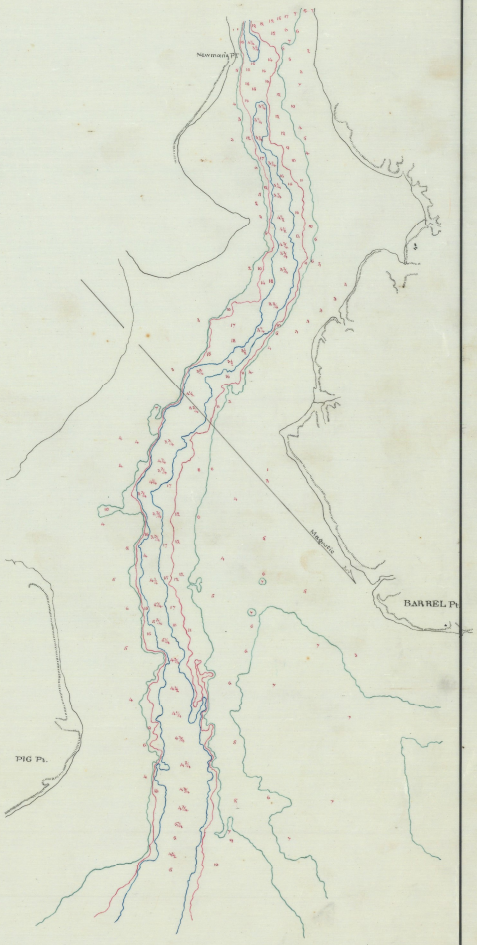
G 357 .P6 11







NANSEMOND RIVER

Surveyed under the direction of MAJOR W. P. CRAIGHILL, Corps of Engrs
by William Popp, Asst. Engr.
November 1871

The soundings are expressed in feet and tenths of feet and give the depth of mean low water.
The portion of the river below Newmarket Point was not surveyed, the Coast Survey figures for that portion are given in red.
They are expressed in feet up to 18 feet curve, thereafter fathoms
